SET08114 Coursework Report

Rebecca McGowan

40289316@live.napier.ac.uk

Edinburgh Napier University - Mobile Applications Development (SET08114)

1 Introduction

An introduction to your assignment stating its scope and content. This should include a brief overview of your application choice and the inspiration for your choice. Reference your reading.

2 Software Design

You are expected to do some software modelling of your application choice.

3 Application Implementation

Short description of your application implementation including screenshots.

4 Critical Evaluation

Original Concept A comparison against the original concept as detailed in your introduction

Other Applications Comparison against other applications/games in the genre, particularly the ones that inspired your choice

User Feedback An evaluation of your app against user feedback or as compared with other apps/ games

Improvements Possible improvements to your application

5 Personal Evaluation

Personal evaluation - reflecting on what you learned, the challenges you faced, the methods you used to overcome challenges, and you feel you performed.
